Frontend Developer specialized in React and Next.js, with additional experience in Vue and a strong focus on performance optimization for large data sets. Recently optimized the loading of a 38,000-record table without backend pagination, enhancing user experience and preventing client-side overload. Led the end-to-end integration of a logistics process flow and developed a web scraping project deployed on Amazon EC2 to keep a custom knowledge base updated for a client-specific chatbot. Additionally, experienced in agile environments using Scrum for collaborative and iterative project delivery.

Professional Experience

Trascender Global SAS   **Remote**
Frontend Developer   *Dec 2022 – Present*

- Optimized a 38,000-record table load without backend pagination, significantly improving user experience and reducing client-side load.
- Integrated the full logistics process flow from initial load to final delivery using Next.js, ensuring smooth end-to-end operations.
- Developed and deployed a web scraping solution for a client's own site, cleaning and loading data into a knowledge base on Amazon ECS with a 24-hour cron job cycle for a custom chatbot.
- Collaborated in agile teams using Scrum methodology to deliver features in iterative sprints.

Freelance   **Remote**
Graphic Designer   *Oct 2021 – Dec 2022*

- Created custom branding and iconography for multiple clients, including logo design and unique visual assets.
- Worked under confidentiality agreements, demonstrating the ability to handle sensitive client requirements and deliver high-quality design solutions.

Education

Servicio Nacional de Aprendizaje (SENA)   **Medellín, Colombia**
Technology in Analysis and Software Development   *Oct 2023 – Dec 2025*

Technical Skills

- Languages & Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, Vue.js
- Backend & Databases: Node.js, NestJS, Prisma, MySQL, PostgreSQL
- DevOps & Tools: Git, GitHub, Docker, Vercel, Railway
- Testing & QA: Jest
- Design & UX: Figma, Illustrator, Photoshop
- Agile Methodologies: Experience in Scrum and collaborative sprint-based development.

Languages

- Spanish: Native
- English: C1 level (reading and writing), certified by the EF SET exam
